Best philosophical ideas educate, consolidate and unite Humanity

Attention of ALL inhabitants of the Earth!

Urgent!

CALL TO REASON

There are less than 30 symbolic seconds left before the general COLLAPSE. What should Humanity do to prevent the destruction of Life on our planet?

Assessment of the situation from the standpoint of Classical Philosophy

Currently, there is only one conditionally independent body on the Earth – the **Bulletin of Atomic Scientists** (this is all that remains of the *Emergency Committee of Atomic Scientists* founded by **Albert Einstein** in 1945), assessing the prospects for the preservation of Humanity as a unique phenomenon of **Nature (Matter)** in an attempt to **self-realize** itself.

Nature (Matter) has already practically achieved this goal by creating during 5 billion years the necessary unique conditions on the planet **Earth**, under which **Life** on this planet originated and has been developing for many millions of years.

We will not dwell here on the ontological issues of the phenomenon of self-awareness of *Matter*, stating only that another such amazing phenomenon as *Life* has such a degree of development in the visible part of the **Universe**, i.e. for trillions of kilometers. around us, has not yet been detected.

And this unique creation of *Nature – Life* on our planet – today is under the threat of **self-destruction**. And the threat to this arose not from the deadly *Cosmos* (while *Nature* by all means protects *Life* on Earth from the *Cosmos*) but comes from the most highly developed creation of *Matter – Human being – Homo sapiens*. And it is the awareness of the possibility of self-destruction that becomes an immutable element of *self-consciousness*.

That is why the *Bulletin of Atomic Scientists*, instead of the previously published annual assessments of the degree of danger to Humanity, which for many years amounted to tens of minutes, for the third year in a row predicts Humanity only **100 symbolic seconds** before the global catastrophe - the **End of the World!**

The latest assessment was published on January 20 of this year, but the armed conflict that began in Europe a month later made this assessment obsolete. Events on the planet are developing so rapidly that the assessment of the situation should no longer be given annually, as it was before, but monthly!

The World Philosophical Forum estimates the current situation as of **April 2022** as **30 symbolic seconds** until the *End of the World*.

Motivation of the current assessment and the main reasons for the approach of the general COLLAPSE

The reasons for the growing danger of the complete destruction of current Life on Earth are several negative factors:

1. The main one of them should be considered the **lag** of the **public global consciousness of Mankind** from the *requirements and needs of the XXI century*. Why is it dangerous? The fact is that in the 20th century, human technological knowledge has reached such heights that Humanity has gained the ability to destroy the environment on the planet and everything that is here in a matter of minutes. At the same time, the level of *consciousness* of most of the inhabitants of the Earth is stuck somewhere in the 15th - 19th centuries, and for many it is even lower. This happened for a number of historical reasons, but the main one is the lack of proper education of the planet's population with proper knowledge (and above all, knowledge of **Classical philosophy**), and the littering of the *minds* of the majority of the planet's inhabitants with false or outdated knowledge.

As a result, the vast majority of Humanity, born as **Homo educandus**, (i.e., subject to *education and upbringing*), due to improper *training and education* because of the underdevelopment of their consciousness, reach only the level of **Homo reptiloids**, but not **Homo sapience**, which all the inhabitants of the Earth should become and be, especially in the XXI century.

Undereducated people-**reptiloids** are those whose **neocortex** of their brain is filled with false or rubbish knowledge, and therefore is of little use for Life, and their entire existence and behavior occurs on reflections of the **reptilian** part of the brain, that was permissible in the past, but in no way acceptable in the XXI century.

2. For this reason, Humanity has not yet been able until now to self-organize its life on the planet in such a way as to self-govern so as to live a normal, **reasonable** life for all generations of Earthlings (past and present) living on this land surrounded by little-known expanses of the boundless Universe. Instead, the *people-reptiloids* have drawn the borders of hundreds of states on the surface of the planet, putting obstacles for the free movement of inhabitants across the planet from one part of it to another. The contradictory ideologemes of hundreds of religions and sects, hostile to each other, of various organizations and political parties are hammered into the *neocortex* of people's consciousness. As a result, the global community of the last generations of Earthlings is in fact divided into parts in the form of states, regional unions and blocs headed by not the most intelligent people (no one even determines the degree of their intelligence).

3. Due to these facts, at present, already for several decades, the multipolar world has been divided into several blocks: a) the consolidated "**West**"; b) the Muslim "**East**"; c) **China**; d) **Russia**; e) the "**Third World**" – the underdeveloped countries of Asia, Africa and Latin America. The power of these poles is determined, unfortunately, not by the height of "**reasonable consciousness**" reached, but by the *financial power* that is spent on *luxury* and the *arms race*. The main achievement of this insane race of **reptiloids** was the creation of more than **13 thousand** nuclear warheads, only **100** of which, according to experts, are enough to destroy completely all Life on the Earth.

4. Thus, Humanity in the 21st century has reached not the heyday of REASON, MORALITY, JUSTICE and RESPONSIBILITY, but the ability to self-destruct itself and Life on Earth 130 times! And this is still not enough for the *reptiloids* ruling the World.

The countries that are potential destroyers of Life on Earth continue to improve the instruments of self-destruction – atomic warheads, their delivery systems, chemical and bacteriological means of mass destruction of people. It can be seen that the current figure of **130 times** is not the limit for **unreasonable reptiloids**, and they want to achieve the ability to destroy, wipe off the face of the Earth all Mankind **500**, **1000** times. What for?! There is no limit to the imagination of their sick, defective consciousness, it is what, distorted by only one thing – their **ignorance**, which generates their greed for power and money! They shamelessly name **nuclear weapons** a DETERRENT FACTOR. No! Such weapons are not just MURDERING TOOLS, they are TOOLS for DESTROYING LIFE on Earth! Such weapons can restrain only ignorant, **unintelligent reptiloids** themselves. In *normal, reasonable Humans*, the deterrent and activity factor is their correctly formed *neocortex* of consciousness, in which REASON, WISDOM, MORALITY, JUSTICE and RESPONSIBILITY prevail, which is what the *reptiloids*, which include the majority of the inhabitants of the Earth, for the most part lack.

5. One of the evidences of the *distortion of Humanity's public consciousness* is that, although many Constitutions and Declarations mention the **HUMAN RIGHT TO LIFE**, in half of the countries of the world there is the **DEATH PENALTY**, i.e. the **murder of a Human**. At the same time, they do not understand why this person committed this or that crime for which he was convicted. But in such cases, it is necessary to judge the whole system in which such a person was brought up, because it made his consciousness such. But Humanity is still far from understanding this.

With all this, in all countries, in all constitutions, there is a legalized **RIGHT TO KILL** through the creation of national armies of killers (that is, national armed formations and their unification in international blocs), the production of murder weapons, the maintenance and training of killers, international trade means of mass murder, which is the leading one in world trade. The murderers, legalized by national constitutions, receive titles and distinctions, and even national state awards.

The absurdity of this is confirmed at least by the fact that there are **International Peace Prizes** (“**Nobel Peace Prize**” in Europe, in the “West” and “Guzi Peace Prize” in Asia, in the Philippines), and there is not a single known **International Prize for war** or **murder**, although the United States, Germany and Japan could historically have the right to claim such a thing.

6. It is precisely this **RIGHT TO KILL**, legalized everywhere, that has led Mankind to the fact that it has become capable of *self-destructing* itself hundreds of times. And no one raises the question of a **UNIVERSAL PROHIBITION OF THE RIGHT TO KILL** and its replacement with a **UNIVERSAL OBLIGATION TO STUDY CIVIL KNOWLEDGE**. Logic suggests that it is the opponents of such PROHIBITION and such OBLIGATION that should be condemned to the **DEATH PENALTY** in the first place. There should be no Arms Reduction Treaties in the 21st century, this is outdated and has gone down in History. In the 21st century, the **RIGHT TO KILL** should be abolished, prohibited everywhere, and all armies should be abolished, completely disarmed, and all the resources spent on them are directed to **ENLIGHTENMENT**, the liberation of people's consciousness from the darkness of **IGNORANCE!**

7. All **RIGHTS**, all **DUTIES** on Earth stem from *ideas* and *ideologemes*, which, with lists of *values* and *vices*, form certain **ideologies**. All the numerous religions and sects, secret and explicit public organizations have their own *ideologies*, and peoples and states are guided by them in their lives, and their provisions even fit into the

Constitutions of countries. The most correct ideas were developed many years ago in Ancient Greece and enshrined in the teachings of **Classical (scientific) philosophy** - the **SCIENCE OF LIFE**, but due to the long-standing ban on knowing and using this knowledge (in **529** by the **Edict** of the Byzantine Emperor **Justinian I**), a complete chaos was outlined in the public consciousness of Mankind. Moreover, the two most nuclear-armed states - the **United States** and **Russia** - do not have any mentions of **reasonable** ideological foundations in their Constitutions at all. The same can be said about the **EU countries**.

In contrast to them, only **China** can be positively noted here, only in the Constitution of which the most correct modern scientific - philosophical ideologeme is firmly written about the need to educate people on the basis of **dialectical and historical materialism** and the designated *values of Classical philosophy*. The successes of modern China are direct evidence of this correct way. **Italy, Germany, Ukraine** and partly the **USA** distinguished themselves by appearing in their *public consciousness* and following the **ideology of Nazism-fascism**. Such is the price of distorted enlightenment.

8. Historically, this led to the unleashing of **two world wars** in the 20th century, which arose, it would seem, in the most developed part of the planet - in Europe - but eventually encompassed the whole world. The armed conflict that began in February of this year is again in the center of Europe, gradually involving in one way or another the states of all the continents of the planet, in fact, already has a planetary character and can easily grow and lead to the **Third World War**, which at any moment can turn into a **thermonuclear** one. And it is already known that in the very first exchange of nuclear warheads, more than **3,000 nuclear warheads** will be immediately launched from both sides, i.e. this is already **30-fold** destruction of all Humanity. Therefore, if millions of people died in *World War I*, tens of millions died in *World War II*, then the result of *World War III* is already seen in the complete self-destruction of Mankind and the erasure of all Living Things from the face of the Earth!

9. Naive observers of countries far from the conflict on other continents of the Earth, who follow from afar the course of hostilities that have begun in Europe and think that this military conflict does not concern them in any way, will bypass them, should understand that NO, IT WILL NOT BYPASS! And all of them, both on the outskirts of Europe, and in Africa, and in Asia, and in the Middle East and Central Asia, and in North and Latin America, and Southeast Asia, and in Australia, and even in Antarctica, must get used to the idea that in the event of the *Third World War*, which is not far off, them ALL! can NOT BE now at any moment, and only a **pile of ashes or charred bones** may remain from the vast majority of them in a matter of minutes.

This is what the MADNESS of HUMANITY, growing more and more due to the **ignorance** of *reptiloids*, its immense craving for money and the rejection of **reason, wisdom, justice** and **responsibility** (including *global responsibility*) has led to!!! Most people on Earth do not know and do not follow such a property of consciousness as **CONSCIENCE** – moral self-control, inherent only in a genuine Human.

What should be done to save Humanity from the MADNESS of Reptiloids in the current conditions?

The first person who realized the danger to *Humanity* coming from *Homo Reptiloids* was **Ban Ki-moon**. Being the head of the UN (i.e. holding the highest official civilian post on the planet) for 10 years, he realized that the member countries of the United Nations are not only completely divided, but, hating each other, are doing everything to worsen, destroy Life on the planet. It was the reason, why, in order to avoid this, he announced his famous appeal to all the Humanity in September 2012 "**Global Education First Initiative**", supported also by the then **UNESCO Director-General Irina Bokova**, calling everyone on the Earth to join the program "**Lifelong civil education for all**" and to foster the **Global citizenship** worldwide.

But this **Initiative**, aimed to upgrade and update the **all-human consciousness**, was completely ignored or even rejected by the civically and philosophically uneducated world, regional and local rulers, political leaders of all stripes, financial bosses and mass media. The plain people-*reptiloids* in mass even didn't hear about this UN *Initiative*.

Why has it happened so? The reply is well known: This "*Global Education First Initiative*" was aimed to unite all peoples on all continents into a single civically educated supranational, suprareligious human race formed on the basis of a common for all **Universal ideology** and unified **civic knowledge** into the *Global Citizenship* governed on the basis of the **Universal Constitution of the Earth** by organs of the single, newly established all-planetary **Universal State of the Earth (USE)**, being the form of self-organization of well-educated Earth Citizens with properly upgraded consciousness, fit to face problems and challenges of XXI century and provide a decent life on our planet for all its inhabitants.

As a result of ignoring the *UN Initiative*, Humanity has already lost **10 years**, during which its public consciousness could grow, and the danger of a possible **nuclear collapse** on the Earth would gradually begin to move away.

In this regard, the **World Philosophical Forum** calls on all Humanity, all the inhabitants of the planet to remember, finally, about **REASON**, based on which it is proposed:

- 1) All warring parties on the planet should immediately stop armed conflicts, as not a method of solving emerging problems among reasonable people in the 21st century and consider the killing by some people of other people as an evidence of the lack of proper *civil education* on both sides, which means that they have a littered, inhuman undeveloped consciousness. I.e. these are the cases, when some *reptiloids* kill other *reptiloids*, and third *reptiloids* contribute to this by supplying deadly weapons and imposing all kinds of sanctions, from which even also those still few *intelligent people* on Earth - **Homo sapiense** – suffer.
- 2) Since the military conflict in Europe actually is taking place between the two poles of the world, between the "West" - NATO countries and the "East" - Russia, and really threatens to escalate into the *Third World War*, which can lead in a short time at any moment to the death of all Humanity, including all distant countries and continents, to establish urgently the "**Pan-human Emergency Anti-Crisis Committee (PEAC)**" (by analogy with the establishment by *Albert Einstein* in 1946 of the *Emergency Committee of Atomic Scientists*) on the supranational basis, consisting of *Citizens of the Earth* with global responsibility, endowing it with **emergency powers** on behalf of all Mankind, expressed in the mass support of this undertaking by the inhabitants of the planet through moral (massively joining *Global citizenship* by submitting *Applications* - <http://wpf-unesco.org/rus/wcznrq-r.htm>) and / or material financial assistance to the work of the **PEAC** in any amount at the address - <http://wpf-unesco.org/eng/contr.htm>

The following **Citizens of the Earth (USE)** are proposed to the **primary composition** of the **PEAC** for taking **decisions and recommendations** based on **REASON** dictated by the ideas of Classical philosophy, in the interests of ALL Humanity for its own salvation from insane self-destruction:

Suggestions are accepted to e-mail ikondrashin@yandex.com for inclusion in the List of *Candidates* for the Main and Auxiliary **memberships** of the **PEAC** of additional names, provided that they have the supranational status of the *Citizen of the Earth*. If desired, any inhabitants of the planet, who have passed the procedure for becoming the *Global Citizen* by submitting the *Application* - <http://wfp-unesco.org/eng/wcznrq-r.htm> - can apply and participate in the auxiliary work of the **PEAC**,

The place of work of the **Pan-human Emergency Anti-Crisis Committee** is defined the city of **Athens, Greece** - the cradle of the *Earth's intelligent civilization* and *Classical philosophy*, where the philosopher **Socrates** was the first in the History of Mankind who proclaimed himself a **Citizen of the World**, as well as the city of **Delphi, Greece** - the ancient symbolic **Center of the Earth**, where the sacred ancient **Stone of the Center of the Earth** is kept and where important decisions were taken in the ancient Greek world.

The work of the **Pan-human Emergency Anti-Crisis Committee** will be held under the auspices of the *Greek Parliament*, and the process of work will be solemnly consecrated by the priestesses lighting the **Fire of Reason and Wisdom** on the ruins of Plato's Academy, which is also lit during the annual **Dialectical Symposia** of the *World Philosophical Forum*.

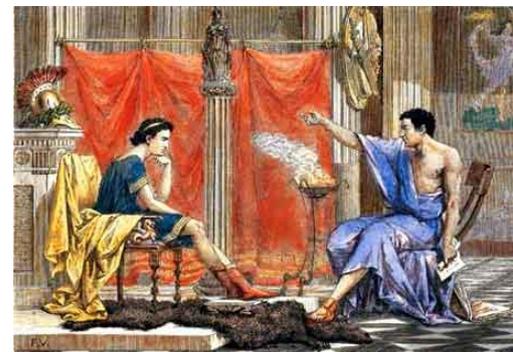

In **September 2022**, a solemn celebration of the **10th** anniversary of the historic **Ban Ki-moon / UN "Global Education First Initiative"** is planned in Athens. All registered *Citizens of the Earth* are invited to the celebration. If there are a lot of

people willing to celebrate, then the celebration will take place in the building of the *Old Parliament*, or even at the *Olympic Stadium* of Athens.

Financial support for the work of the **Committee** can be carried out only on the **donations** of ordinary inhabitants of the Earth (that is, you and me), as well as of organizations and governments, who wish to take part in the **salvation of Mankind** and in the speedy cessation of the **global catastrophe** that has begun. Funds should be transferred to the address - <http://wfp-unesco.org/eng/contr.htm>

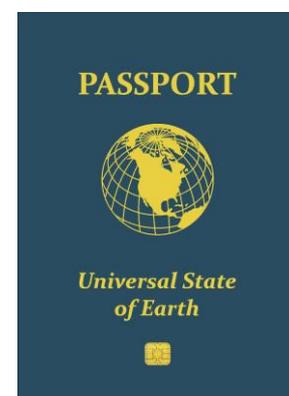

The list of priority tasks of the **Pan-human Emergency Anti-Crisis Committee** includes:

- 1) Work out solutions for the unconditional cessation of all ongoing hostilities in Europe and other places on the planet, as well as the prohibition of **wars** as a way to resolve conflicts in the XXI century. In each case, authorized representatives of the parties to the conflicts will be invited to the meetings of the *Committee* and jointly work out the conditions for the termination of each conflict, sealed with three signatures. From now on, to give **all wars** and **conflicts** unleashed on the planet, including economic, informational, hybrid ones, the status – **CIVIL!**, and the **Citizens of the Earth** should not allow them anymore to be.
- 2) To work out a decision to abolish the practice of all kinds of sanctions of some countries against others, as a way to resolve conflicts in the XXI century, as well as media confrontation between conflicting parties.
- 3) Develop a decision on the conditions for the final cessation of the confrontation between the “West” and the “East”, the USA and Russia, and China, and other states through the improvement and further development of public consciousness through the unified civic education and the entry of their citizens into a joint **Global citizenship**.
- 4) Work out a solution for the universal abolition of the existing **RIGHT TO KILL** by starting the *general complete disarmament* of **all countries!** and the gradual disbandment of their military infrastructure.
- 5) To work out a decision on the redirection of all financial resources of all countries going to the production and purchase of weapons of murder and the maintenance of armies, to the development of a system of **civil education** unified for all countries.
- 6) To approve the ideology “**Transuniversalism**” uniform for all Mankind and to start the formation of a single for all Mankind system of education on the basis of the **Classical**, and not scholastic! **philosophy**, remembering the statements of **Alexander the Great** (Macedonian): “I owe to Father Philip that I live, and to Aristotle (the ancient Greek philosopher) that I *live with dignity*. *If I had not been Alexander, I would have become Diogenes* (the ancient Greek philosopher).”
- 7) To establish on the Earth a single on the planet **Bipolar PARADIGM**, **one (first)** of the **poles** of which to consider **Humanity**, self-organized into **Global citizenship**. The **other (second) pole** to consider the deadly **Cosmos**, surrounding the planet and dangerous to all **living** things. The inhabitants of the planet, who have not joined the *Global Citizenship* - **Reptiloids**, from **2023** will be attributed to the **second pole** of the *bipolar world*, as supporters of the destruction of Hu-

manity and Life on Earth and in the Universe, with all the ensuing consequences that follow from this.

- 8) To work out a decision on the disbandment of all military units, the closure of all military bases on their own and foreign territory, the disposal of all murder weapons, warships and submarines, military aircraft and missiles, the retraining of army instructors to professionally kill to become teachers of civil knowledge in the system of civil learning on *how to live properly and well*.
- 9) To work out a decision to ban the development, production, use and sale of all types of weapons, including *chemical* and *biological* weapons, and to sentence violators of this prohibition up to **life imprisonment**. *Drugs* and *counterfeit medicines* should be equated with chemical and biological weapons that harm the **consciousness and health** of people.
- 10) All inhumane, antisocial, unnatural and anti-scientific ideas and ideologies of a political and social nature (**Nazism, fascism, racism, Zionism, anti-Semitism, terrorism, fanaticism**, etc.) should be considered as means of distorting *individual and public consciousness* and their preaching and popularization should be considered as a **Crime against Humanity**, and condemn those involved in it, deprive them of their civil rank in the *Global citizenship* system and subject them to more thorough civil re-education until they successfully pass the relevant tests and exams.
- 11) To develop and approve a mechanism for visa-free, free, unhindered movement of **Citizens of the Earth**, forming the **Global citizenship** of the USE, throughout the planet using the **passports** of the **Universal State of the Earth**.

The start of the work of the **PEAC** Committee depends on how quickly the mass supranational civil support from the inhabitants of the Earth beginning, as well as material support for the financial provision of the organization of its full-fledged work. Practice shows that people-*reptiloids*, of whom the vast majority are now, are ready to spend money on anything - on *luxury, festivities and entertainment*, rather than for such purposes as preserving **Nature, Life**, supporting and acquiring **Reason**.

Simultaneously with the work of the *Committee (PEAC)*, the formation of **Global Citizenship** continues, where you can join by becoming a **Citizen of the Earth** by sending your **Application** from - <http://glob-use.org/eng/socr-sch/wcznrq.htm>

The work of the **Committee** will be temporary, extraordinary, transitional, and as the *Global Citizenship* multiplies and the bodies of the **Universal State of the Earth** (USE - <http://glob-use.org/>), established in 2015, are formed, its functions will be transferred to the **Supreme Council of Humanity** (SCH - <http://glob-use.org/rus/use/sch/prwc.htm>), as well as to the newly formed **Parliament of the Earth** and other bodies of the USE, where only *Citizens and Aristocrats of the Earth* will work, and who will consolidate legislatively the decisions developed by the **PEAC**.

So, the **World** can no longer remain the way as it was before. Everything has to be changed most radically. If this does not happen in the near future, then the general **COLLAPSE** will end the **Life** on Earth once and for ever, in all its most remote corners – from Europe to New Zealand.

As it was already mentioned, the *World Philosophical Forum* assesses the current situation on the Earth as reduced to **30 symbolic seconds** till the *End of the World*. It's time to

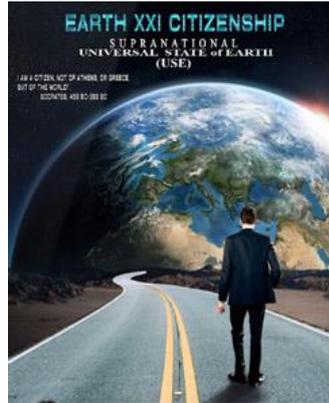

start as soon as possible the countdown, which will be published monthly on the **WPF website - <http://wpf-unesco.org/>**

It should be noted that not a single religious denomination, political or international organization, neither the current UN, nor UNESCO, nor the G7, nor the G20 have announced to Humanity any effective proposals to stabilize *Life on Earth*, guiding it in the right safe direction. Therefore, only specialists armed with the knowledge of **Classical Philosophy** – the *Science of Life* can do it, and Humanity should not miss this saving chance for itself.

Therefore, Humanity, i.e. **EVERY INHABITANT** of the Earth, including heads of states and governments, leaders of all religious denominations and sects, still has the last choice in their life:

A) To support the creation of the **Pan-human Emergency Anti-Crisis Committee** and create all the conditions for its work to bring Humanity out of the historical impasse where it has been led by the current false ideas (or rather lack of ideas) and the global ignorance of the current and previous leaders-rulers of the world. To leave the ranks of **reptiloids** and join the *Global*

Citizenship, the list of which is still small (see - <http://glob-use.org/id.htm>) and this is now the main current problem of Humanity. Your Application can be submitted to - <http://glob-use.org/eng/socr-sch/wcznrq.htm>

B) Try to live in constant, minute-by-minute fear for your life for the remaining **30** symbolic seconds, watching how they become less and less: **25, 20, 15, 10, 5, 4,3, 2,1,0!!!**

When there are no seconds left at all, there will be no choice left, and only a handful of dead ash will remain from each of us, blown by the wind over the desert surface of the planet once filled with Life, circling alone around the Sun in the boundless ocean of the infinite space of the Universe
